

# FAST

NEWSLETTER

Hello, Colleagues.

Entering its second year, the FAST Program continues to expand and now includes over 1,500 participants. In addition, over 1,000 UK employees have taken at least one FAST course voluntarily. That's over 2,500 UK employees who have utilized a FAST course to learn something new! This level of participation demonstrates a commitment to strengthening business operations and continually improving our work at UK.

To keep moving forward toward these goals, the FAST program is continuously seeking new topics for courses that will provide employees with the tools, resources and information they need to perform their duties and safeguard UK's business operations. When the 'why' and 'how' of a process is understood,

efficiency increases and errors decrease. You can help support the program by identifying areas that may need additional explanation.

- Is there a topic that you would like to learn more about?
- Have you noticed a procedure or process that would benefit from a FAST course?
- What other knowledge would support you in performing your job?
